

Safe-T-Rail II

Powder-coated Black

Polished Stainless Steel

Includes

- Ultra-sturdy, black powder-coated, rust-free aluminum or polished stainless steel construction
- 16 1/2" built-in kickplate that slides under the spa, making installation and display a snap
- Slip-free foam grip
- Works with most above-ground spas
- 5-minute installation
- Maximizes safety in and around the spa
